JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress)

By James Weaver

JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) By James Weaver

JavaFX Script makes it easy for developers to quickly create high-quality user interface-intensive applications very quickly. As *JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications* demonstrates, developers can create rich Internet applications and rich client-side user interfaces quickly and easily with this potential replacement for Ajax and perhaps even ActionScript and other scripting found in Flash. This firstPress book on JavaFX Scriptcovers the following topics:

- The fundamentals of the JavaFX suite of technologies and the foundations of JavaFX Script and available tools
- How to create a Wordsearch application
- How to augment and enhance the Wordsearch application after learning more advanced JavaFX Script features such as classes, objects, user interface components, and constructs

What you'll learn

- Understand the JavaFX family and JavaFX Script and its relationship to the Java/Java SE 6 platform
- Set up a JavaFX Script development and execution environment culminating in a Hello JFX application
- Create a Wordsearch application and explore important JavaFX Script concepts by doing so
- Survey the JavaFX UI Components including the commonly used ones that go into further building and enhancement of the Wordsearch application frame and menu structure
- Use more advanced JavaFX Script language constructs for extending the Wordsearch application
- Build JavaFX classes and objects, build the data model for the WordSearch application, and run the data model with a tester program
- Develop the view for the Wordsearch application using a data model such as

bind as well as drawing on a canvas
- Explore more JavaFX Script concepts and possible IDE tie-ins to NetBeans, Eclipse, etc.

Who this book is for

This book is for content developers and application developers with some programming experience who want to create rich Internet applications.

Table of Contents

1. Introduction to JavaFX
2. Quick Start
3. Creating User Interfaces in JavaFX
4. Creating JavaFX Classes and Objects

About the Author
Jim Weaver is an author, speaker, teacher, and developer in rich Internet application technologies such as JavaFX, and may be contacted at jim.weaver@javafxpert.com.

Users Review

From reader reviews:

Calvin Baker:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their own spare time to take a walk, shopping, or went to typically the Mall. How about open or perhaps read a book called JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress)? Maybe it is for being best activity for you. You already know beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with the opinion or you have different opinion?

Sonya Ewing:

Here thing why that JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) are different and trusted to be yours. First of all reading a book is good nonetheless it depends in the content than it which is the content is as tasty as food or not. JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) giving you information deeper including different ways, you can find any reserve out there but there is no guide that similar with JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress). It gives you thrill looking at journey, its open up your own eyes about the thing that happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in recreation area, café, or even in your means home by train. If you are having difficulties in bringing the printed book maybe the form of JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) in e-book can be your alternate.

Michael Lucius:

The reason? Because this JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) is an unordinary book that the inside of the book waiting for you to snap that but latter it will zap you with the secret it inside. Reading this book alongside it was fantastic author who also write the book in such awesome way makes the content inside of easier to understand, entertaining means but still convey the meaning fully. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of benefits than the other book include such as help improving your proficiency and your critical thinking approach. So , still want to delay having that book? If I ended up you I will go to the guide store hurriedly.

Michael Hollinger:

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library in order to make summary for some e-book, they are complained. Just small students that has reading's internal or real their interest. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this JavaFX Script: Dynamic Java Scripting for Rich Internet/Client-side Applications (FirstPress) can make you feel more interested to read.
