Project Management By Harvey Maylor

Combining a strong academic approach with relevant practical cases, this text skillfully shows the range of issues that face project managers throughout the project cycle. This new Media Edition comes with a free CD Rom containing a 60 day trial version of Microsoft Project for students. This edition is easier to use than ever before, with two colour text design and more diagrams and figures to aid navigation and understanding. Extra teaching materials are available online for lecturers at www.booksites.net/maylor. Project Management is used extensively to accompany courses on undergraduate, masters and MBA programmes, as well as for in-company training and for professionals wanting to bring themselves up-to-date with developments in the field.

Editorial Review

Review

'For all involved in projects, it's a book that needs to be on your bookshelf, but better in your hand'. Bob Saunders, Open University and Association for Project Management. 'A thorough introduction to project management. Highly recommended for use as an introductory course text'. Paul Walley, Lecturer in Operations Management, Warwick Business School. 'A useful introduction to the subject for students, as it indicates the complexity of the subject and its importance in a wide range of industries'. - Prof J.H.Rogerson, Dean of Engineering, Science and Manufacturing, Cranfield University --na

From the Back Cover

Combining a strong academic approach with relevant practical cases, this text skilfully shows the range of issues that face project managers throughout the project cycle. Harvey Maylor considers projects as being a core business activity and approaches the subject from a strategic perspective, covering both the role of projects in the execution of organisational strategy and the application of strategic principles in projects.

Classic features:

- Covers a wide range of project settings, from traditional large-scale industrial projects through to small-scale personal projects, in both service and manufacturing settings
- Each chapter contains examples of 'Project Management in Practice' as well as case studies, discussion questions and exercises to help you check your understanding
- This new Media Edition comes with a free CD Rom containing a 60-day evaluation version of Microsoft Office Project Professional 2003 to help familiarise you with the most commonly used project management software.

Project Management is used extensively to accompany courses on undergraduate, masters and MBA programmes, as well as for in-company training and for professionals wanting to bring themselves up-to-date with developments in the field. Extra teaching materials are available online for lecturers at <http://www.booksites.net/maylor>.

Dr Harvey Maylor is Lecturer in Operations and Project Management at the University of Bath School of Management. He is also a consultant and trainer in the area of Project Management, and has received funding for his research from industry, government, the European Commission, and most recently, the Project Management Institute.

Users Review

From reader reviews:

Charles Lemaster:

Throughout other case, little folks like to read book Project Management. You can choose the best book if you appreciate reading a book. Given that we know about how is important some sort of book Project Management. You can add know-how and of course you can around the world with a book. Absolutely right, due to the fact from book you can learn everything! From your country till foreign or abroad you will be known. About simple issue until wonderful thing you can know that. In this era, we can easily open a book or perhaps searching by internet system. It is called e-book. You can utilize it when you feel uninterested to go to the library. Let's learn.

Fidel Auxier:

Book will be written, printed, or created for everything. You can recognize everything you want by a publication. Book has a different type. We all know that that book is important factor to bring us around the world. Close to that you can your reading talent was fluently. A guide Project Management will make you to possibly be smarter. You can feel considerably more confidence if you can know about everything. But some of you think that will open or reading the book make you bored. It is not make you fun. Why they might be thought like that? Have you seeking best book or suitable book with you?

Linda Livingston:

In this 21st millennium, people become competitive in every single way. By being competitive currently, people have do something to make them survives, being in the middle of the actual crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated the idea for a while is reading. Yes, by reading a publication your ability to survive improve then having chance to stay than other is high. To suit your needs who want to start reading a book, we give you this Project Management book as beginning and daily reading reserve. Why, because this book is more than just a book.

Mary Benoit:

The reason? Because this Project Management is an unordinary book that the inside of the e-book waiting for

you to snap it but latter it will zap you with the secret this inside. Reading this book alongside it was fantastic author who have write the book in such wonderful way makes the content interior easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of gains than the other book get such as help improving your talent and your critical thinking approach. So , still want to hold off having that book? If I had been you I will go to the guide store hurriedly.
