Editorial Review

From Publishers Weekly

Michener, a writer who has enjoyed enormous popular esteem, remains an elusive personality; and his memoir, though frank and open on the surface, brings us no closer to him. The book is considerably entertaining, for his storytelling skills are ever at work, from his wartime years as a young officer in the South Pacific to his service on various Washington committees, his world travels and his life as a successful writer. But it strikes one as unlikely that the reticent, unfussy, modest man he is at pains to portray could have mustered the determination and stamina to create the remarkable career he has enjoyed. Michener likes to see himself as Mr. Average, suggesting perhaps that anyone could have done what he has with what he acknowledges are only moderate gifts. But his accounts of his love of opera, painting and literature, and of the effort he made to educate himself in those arts, show him to be infinitely beyond the ordinary. His rigid standards of fiscal probity and his disdain for the limelight are also virtually unique among living authors, as is the generosity with which he has disposed of his considerable fortune to aid writers less well endowed. This is a frustrating book, then, because one wishes to know Michener better than he seems to know himself; but it will probably delight his many fans, even if it misleads them. From Library Journal

This latest Michener title explores the personal history and intellectual, political, and philosophical landscape of the prolific 84-year-old writer and storyteller--terms he prefers to author. Michener offers selected events and influences that enabled a Pennsylvania boy of unknown parentage and no monetary advantages to mature into a man who has had various mundane and adventurous occupations and has written over 30 books, published since he was 40, that have brought him fame, national honors, and enough money to fund generously a range of charitable endeavors. The 14 topically arranged chapters are by turns didactic, candid, reflective, occasionally repetitive, and usually informative--although Michener maintains his stance of not discussing certain topics (e.g., his divorces). Thus, while this book represents a refreshing change from the current crop of tell-all memoirs, a scrim often seems to separate reader from writer. Nevertheless, given the continuing popularity of Michener's works despite any adverse commentary, this book is a recommended addition to the Michener collection in any library.

Review

"Michener's own life makes one of his most engaging tales—a classic American success story."—**Entertainment Weekly**

"The Michener saga is as full of twists as any of his monumental works. . . . His output, his political interests, his patriotic service, his diligence, and the breadth of his readership are matched only by the great nineteenth-century writers whose works he devoured as he grew up—Dickens, Balzac, Mark Twain."—**Chicago Tribune**

"There are splendid yarns about [Michener's] wartime doings in the South Pacific. There are hilarious cautionary tales about his service on government commissions. There are wonderful inside stories from the publishing business. And always there is Michener himself—analyzing his own character, assessing himself as a writer, chronicling his intellectual life, giving advice to young writers."—**The Plain Dealer**

“A sweepingly interesting life . . . Whether he’s having an epiphany over a campout in New Guinea with head-hunting cannibals or getting politically charged by the melodrama of great opera, James A. Michener’s world is a place and a time worth reading about.”—*The Christian Science Monitor*

Users Review

From reader reviews:

Paul Howard:

The book World Is My Home make one feel enjoy for your spare time. You should use to make your capable more increase. Book can to be your best friend when you getting pressure or having big problem together with your subject. If you can make studying a book World Is My Home to get your habit, you can get more advantages, like add your capable, increase your knowledge about many or all subjects. It is possible to know everything if you like start and read a e-book World Is My Home. Kinds of book are a lot of. It means that, science book or encyclopedia or some others. So , how do you think about this reserve?
