Deception Point By Dan Brown

From the *New York Times* bestselling author of *The Da Vinci Code* comes an explosive, high-tech thriller that takes readers from the chilling depths of the Arctic Ocean to the treacherous heights of Washington power.

When a new NASA satellite spots evidence of an astonishingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory...a victory that has profound implications for U.S. space policy and the impending presidential election. With the Oval Office in the balance, the President dispatches White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery -- a bold deception that threatens to plunge the world into controversy.

But before Rachel can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all. In *Deception Point*, bestselling author Dan Brown transports readers from the ultrasecret National Reconnaissance Office to the towering ice shelves of the Arctic Circle, and back again to the hallways of power inside the West Wing. Heralded for masterfully intermingling science, history, and politics in his critically acclaimed, blockbuster thrillers *Angels & Demons* and *The Da Vinci Code*, Brown has crafted a novel in which nothing is as it seems -- and behind every corner is a stunning surprise. *Deception Point* is pulse-pounding fiction at its best.

Editorial Review

Users Review

From reader reviews:

Teresa Powers:

As people who live in typically the modest era should be up-date about what going on or information even knowledge to make these people keep up with the era and that is always change and move forward. Some of you maybe can update themselves by reading through books. It is a good choice for you but the problems coming to a person is you don't know what one you should start with. This Deception Point is our recommendation so you keep up with the world. Why, because this book serves what you want and wish in this era.

Herman Pendergrass:

People live in this new moment of lifestyle always aim to and must have the time or they will get great deal of stress from both day to day life and work. So , when we ask do people have time, we will say absolutely yes. People is human not a robot. Then we request again, what kind of activity have you got when the spare time coming to a person of course your answer will unlimited right. Then ever try this one, reading guides. It can be your alternative within spending your spare time, the actual book you have read is usually Deception Point.

Patricia Stroud:

This Deception Point is great e-book for you because the content and that is full of information for you who always deal with world and still have to make decision every minute. This book reveal it info accurately using great plan word or we can claim no rambling sentences within it. So if you are read the idea hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but tough core information with lovely delivering sentences. Having Deception Point in your hand like having the world in your arm, details in it is not ridiculous just one. We can say that no e-book that offer you world inside ten or fifteen tiny right but this e-book already do that. So , this really is good reading book. Hello Mr. and Mrs. occupied do you still doubt which?

Richard King:

Reading a publication make you to get more knowledge from this. You can take knowledge and information originating from a book. Book is published or printed or created from each source in which filled update of news. In this particular modern era like right now, many ways to get information are available for you. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just

trying to find the Deception Point when you essential it?
