Editorial Review

From the Back Cover

Delivering high-value mobile applications-from start to finish

This is the definitive guide to building successful mobile applications. It covers every facet of development and deployment, including business issues, architectural design, integration with existing web and legacy applications, and the management of mobile application development projects. It also presents three application case studies that demonstrate best practices at work in real projects. Coverage includes:

- Requirements, design, development, integration, testing, release, and maintenance
- "Mobilizing" existing application architectures
- Building effective user interfaces for mobile applications
- Fat-client and thin-client scenarios
- Managing client-server data transfer
- Securing mobile applications: authentication, encryption, and data self-destruction
- Full Microsoft .NET code examples for cell phones, Pocket PCs, and Tablet PCs

Mobile Applications is indispensable for everyone who needs to deliver robust, high-value mobile solutions: project managers, technical leaders, architects, and experienced developers alike.

About the Author

VALENTINO LEE is a Principal Solution Architect for Hewlett-Packard. Over the course of his career, he has worked as a developer, architect, technical leader and project manager on numerous legacy, web and mobile application development projects. He holds Master's degrees in Biology, Electrical Engineering, and Computer Science from Oxford, Columbia, and London Universities.

HEATHER SCHNEIDER formerly worked as a lead software developer for HP, designing and developing web and mobile applications using VB, Java, .NET and J2EE. She holds a Master's degree in Computer Science from Pace University.

ROBBIE SCHELL is a lead software developer at HP who has developed many diverse legacy, web, and mobile applications using C, C++, C#, VB, Java, .NET, J2EE, and other leading technologies.

Users Review

From reader reviews:

Ronald Finch:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite publication and reading a publication. Beside you can solve your trouble; you can add your knowledge by the book entitled Mobile Applications: Architecture, Design, and Development:

Architecture, Design, and Development. Try to face the book Mobile Applications: Architecture, Design, and Development: Architecture, Design, and Development as your close friend. It means that it can being your friend when you truly feel alone and beside regarding course make you smarter than previously. Yeah, it is very fortuned for you personally. The book makes you much more confidence because you can know every thing by the book. So , let me make new experience as well as knowledge with this book.

Grace Robinson:

What do you in relation to book? It is not important together with you? Or just adding material when you require something to explain what your own problem? How about your extra time? Or are you busy person? If you don't have spare time to do others business, it is make you feel bored faster. And you have free time? What did you do? All people has many questions above. They have to answer that question simply because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on guardería until university need that Mobile Applications: Architecture, Design, and Development: Architecture, Design, and Development to read.

Marvin Murphy:

Now a day people that Living in the era wherever everything reachable by interact with the internet and the resources included can be true or not demand people to be aware of each info they get. How individuals to be smart in acquiring any information nowadays? Of course the reply is reading a book. Reading through a book can help people out of this uncertainty Information particularly this Mobile Applications: Architecture, Design, and Development: Architecture, Design, and Development book because this book offers you rich info and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it everbody knows.

Alice Myers:

Beside this particular Mobile Applications: Architecture, Design, and Development: Architecture, Design, and Development in your phone, it can give you a way to get more close to the new knowledge or data. The information and the knowledge you are going to got here is fresh from the oven so don't be worry if you feel like an outdated people live in narrow commune. It is good thing to have Mobile Applications: Architecture, Design, and Development: Architecture, Design, and Development because this book offers to you readable information. Do you sometimes have book but you rarely get what it's interesting features of. Oh come on, that will not end up to happen if you have this with your hand. The Enjoyable arrangement here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the idea? Find this book along with read it from currently!
