### **Editorial Review**

#### **About the Author**

David Freedman received his B.Sc. from McGill and his Ph.D. from Princeton. He has worked as a consultant for the City of San Francisco, the County of Los Angeles, the U.S. Department of Energy, and the U.S. Department of Justice. He has written several previous books and numerous technical papers. He is a member of the American Academy of Arts and Sciences and teaches at the University of California, Berkeley.

Robert Pisani received his B.A. and Ph.D. at the University of California, Berkeley. His research interests include probability models of market-price behavior and the statistical valuation of financial instruments.

Roger Purves received his B.A. at the University of British Columbia and his Ph.D. at the University of California, Berkeley, where he currently teaches. His research interests are in the mathematical foundations of probability theory.

### **Users Review**

#### **From reader reviews:**

##### **Asia Haynes:**

Nowadays reading books become more than want or need but also turn into a life style. This reading practice give you lot of advantages. The advantages you got of course the knowledge even the information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want have more knowledge just go with training books but if you want feel happy read one along with theme for entertaining like comic or novel. The Statistics, 4th Edition is kind of reserve which is giving the reader capricious experience.

##### **Gary Lane:**
