**The Mendicant Houses of Medieval London, 1221-1539 (Vita regularis - Ordnungen und Deutungen religiösen Lebens im Mittelalter. Abhandlungen)** By Jens Rohrkasten

The mendicant Orders had a profound impact on urban society, life and culture from the thirteenth century onwards. Being engaged in extensive and ambitious pastoral activities they depended on outside support for their material existence. Their influence extended into ecclesiastical as well as secular affairs, leading to the creation of a network of connections to different social groups and on occasion even an involvement in politics. The role of the mendicants in a medieval capital has not yet been systematically studied. A first attempt to study a city of this scale is here made for London.
