Child Psychology By Ross Vasta, Scott A. Miller, Shari Ellis

Building on the strengths that have made it successful through three editions, this new Fourth Edition presents a topical approach with an up-to-date, accurate, and balanced treatment of child psychology. The text captures the themes and emphases that characterize contemporary thinking in the field. In every respect--organization, emphases, and new material--this edition represents the most thorough-going revision of *Child Psychology* yet.

In this Fourth Edition, new coauthor Shari Ellis brings her expertise on the sociocultural perspective on development. Together, Shari Ellis and Scott Miller continue Ross Vasta's vision for the text.

- * New author, Dr. Shari Ellis, highlights the sociocultural perspective on development.
- * An even stronger emphasis on cultural diversity and the cultural context for development. This emphasis helps students appreciate that development always occurs within a cultural context, and that this context--and also some aspects of development--may be different from what they are familiar with in their own culture.
