**The Bomb** By Theodore Taylor

It is 1946, a year after the bombings of Hiroshima and Nagasaki, and World War II is over. But the U.S. government has decided that further tests of atomic bombs must be conducted. When Bikini Atoll is chosen for the testing site, the inhabitants of the tiny island are told they must relocate for just two years. But sixteen-year-old Sorry Rinamu believes the Americans are lying and that it will *never* be safe to return. He must find a way to stop the first bomb before it is dropped . . . even if it means risking his own destruction.

*Includes a reader's guide and an author's note.*

### Editorial Review

#### From Publishers Weekly

In 1946, Taylor (The Cay) served aboard the USS Sumner, part of a naval team that set the stage for post-war atomic and hydrogen-weapons testings near Bikini Atoll in the Pacific-experiences at the crux of this heart-wrenching novel. As Taylor tells it, the Bikini natives live simply in accordance with age-old customs, taking all they need to subsist from the land and the sea. World War II intrudes when Japanese soldiers establish a weather station in their pristine village. Then, when U.S. Marines capture the island in the "Battle" of Bikini (a misnomer, since the Japanese killed themselves rather than be taken prisoner), the islanders hold a celebration. Little do they know that the same government that has liberated them from the hated Japanese will shatter the peace forever, convincing them to vacate their idyllic residence, placing them in the media's invasive, insensitive spotlight and rendering their homeland uninhabitable. Three very real and likable characters-a courageous 14-year-old boy; his outspoken uncle, who after years away returns to the island with insight into modern society; and the island's perceptive schoolteacher-underscore the tragedy. A haunting, soundly researched work. Ages 12-up.

#### From School Library Journal

Grade 6-10?Sorry Rinamu is a teenager who lives on Bikini Atoll. Shortly after the Americans liberate his island in 1944, the Americans decide to use it as a site for atomic testing. With the promise that people could return to their island in two years?and contrary to the objections of Sorry's Uncle Abram, who argues that it would never again be safe to inhabit?the islanders agree to the plan. When Abram dies suddenly, Sorry vows to fulfill his uncle's intention to stop the tests and is joined by several others. But a serious misjudgment leads the young man and his companions to be blown up during the test. Taylor takes readers on an absorbing excursion, offering vivid descriptions, rich details of Micronesian culture, and a poignant contrast between the peaceful tranquility of the Marshall Islands and the industrialized West. The plot moves briskly with the tension of heroic confrontation. Readers will be challenged with the issues of war, the ethics of nuclear weapons, and the destruction of ancient cultures.?Tim Rausch, Crescent View Middle School, Sandy, UT

#### From Booklist

Gr. 7^10. Sorry will soon turn 14, the traditional age for becoming a man on Bikini Atoll in the Pacific. The Japanese occupation has made his life and the lives of the other islanders more difficult, with the constant threat of violence and demands for food. The "kindly" Americans who rescue the island from the Japanese decide that the place will be perfect for testing their new weapon, the atom bomb. The islanders agree to move for a time to another island while the Americans make their preparations, but Sorry and his uncle are convinced that the move is not as temporary as other islanders believe. When Uncle Abram dies of a heart attack, Sorry decides to carry out his uncle's plan: he will paint his boat red and stop the bombing. At the beginning of each chapter, Taylor enumerates a step in the history of the bomb, building tension by presenting historical facts side by side with the fictional tale until the book's devastating conclusion. He ends with a "factual epilogue" that describes the results of the first bomb test, the failure of the new island to support the Bikinians, and the islanders' aborted attempt to return to their home in 1969. Taylor avoids the pitfall of making the islanders saintly and their life idyllic, letting readers know that they were ordinary people whose heritage and home were stripped from them. An author's note tells about Taylor's own visit to Bikini as an officer on the USS *Sumner* at the time the island was being prepared. Writing simply but powerfully, he has passed his memories on to generations who only associate *bikini* with *swimsuit*. Susan

## Users Review

### From reader reviews:

#### **James Shipp:**

Exactly why? Because this The Bomb is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will surprise you with the secret that inside. Reading this book adjacent to it was fantastic author who else write the book in such awesome way makes the content inside easier to understand, entertaining approach but still convey the meaning completely. So , it is good for you for not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of rewards than the other book possess such as help improving your ability and your critical thinking means. So , still want to hold up having that book? If I ended up you I will go to the guide store hurriedly.

#### **Doris Stanford:**

The Bomb can be one of your nice books that are good idea. Most of us recommend that straight away because this e-book has good vocabulary that could increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The writer giving his/her effort to put every word into enjoyment arrangement in writing The Bomb although doesn't forget the main point, giving the reader the hottest as well as based confirm resource data that maybe you can be one of it. This great information can drawn you into brand-new stage of crucial contemplating.

#### **Judith Mandel:**

Many people spending their time frame by playing outside along with friends, fun activity along with family or just watching TV all day every day. You can have new activity to invest your whole day by examining a book. Ugh, do you think reading a book can definitely hard because you have to accept the book everywhere? It ok you can have the e-book, getting everywhere you want in your Cell phone. Like The Bomb which is getting the e-book version. So , why not try out this book? Let's see.

#### **Lynda Alford:**

That book can make you to feel relax. This kind of book The Bomb was multi-colored and of course has pictures on the website. As we know that book The Bomb has many kinds or genre. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and feel that you are the character on there. So , not at all of book are usually make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading which.
