Long held to be among the world's greatest filmmakers, Ingmar Bergman shaped international art cinema from the 1950s to the 1980s. Among his many works, *Persona* is often considered to be his masterpiece and is often described as one of the central works of Modernism. The essays collected in this volume use a variety of methodologies to explore topics such as acting technique, genre, and dramaturgy. Also included are translations of Bergman's writings that have never before been available in English.
