### Japanese in Mangaland: Learning The Basics By Marc Bernabe

This book is designed to help one master the basics of the Japanese language using the popular "manga" (Japanese comics) as a didactic tool. Its clear explanations and vivid examples help one naturally to get the "feel" for the basic patterns of Japanese grammar and at the same time to remember vocabulary associated with concrete situations. Besides that, learning with manga is more fun than simply reading page after page of dry prose. The 30 lessons that make up the book include drills, and a small glossary of 160 basic "kanji" is appended as an added bonus.
