From One to Zero: A Universal History of Numbers By Georges Ifrah

A student asked mathematician and teacher Georges Ifrah, "Where do numbers come from? When did people learn how to count? How did numbers start?" These seemingly simple queries led Ifrah on an odyssey of origins that resulted in a work of detailed scholarship, tracing mankind's tools and techniques of reckoning, from the stone age to modernity. This book is the first comprehensive investigation of the worldwide history of figures. Written in simple language, making abundant use of illustrations, and assuming no previous knowledge of the subject "From One to Zero" opens the mystery of numbers to the general reader.
