#### Amazon.com Review

Upon examining a dead woman found in snowbound Central Park, Kay Scarpetta immediately recognizes the grisly work of Temple Gault, a bold and brilliant killer from her past. Now she must hunt down a psychopath whose string of horrible murders is leading inexorably to his ultimate prey: Scarpetta herself. Even with the help of the FBI, Scarpetta knows the endgame is hers alone to play -- and it will be played on Gault's home turf, the subway tunnels beneath New York City.

#### From Publishers Weekly

Chief Medical Examiner Kay Scarpetta plays a tense cat-and-mouse game with a serial killer, an old enemy, in her sixth outing (following *The Body Farm*), and he has her badly rattled. The story begins as a rotten Christmas for Scarpetta: Temple Gault has struck again, leaving a naked, apparently homeless girl shot in Central Park on Christmas Eve; Scarpetta, as the FBI's consulting pathologist, is called in. Later, a transit cop is found shot in a subway tunnel, and, back home in Richmond, Va., the body of a crooked local sheriff is delivered to Scarpetta's own morgue by the elusive, brilliant Gault. The normally unflappable Scarpetta finds herself hyperventilating and nearly shooting her own niece. In the end, some ingenious forensic detective work and a visit to the killer's agonized family set up a high-tech climax back in the New York subway, which Gault treats as the Phantom of the Opera did the sewers of Paris. There's something faintly unconvincing about Gault (in a competitive field, it's tough to create a really horrific serial killer), and Scarpetta, stuck with her own family troubles and involved in a rather glum affair with a colleague, seems to be running low on energy. Still, this is a compelling, fast-moving tale, written in a highly compressed style, and only readers who know that Cornwell can do better are likely to complain. #### From Library Journal

What a letdown! After the emotionally involving *The Body Farm* (LJ 9/1/94), Cornwell returns with a ludicrously convoluted plot involving the not very interesting serial killer Temple Brooks Gault, first seen in *Cruel and Unusual* (Scribner, 1993) and making a fleeting appearance in *The Body Farm*. The book opens on a snowy Christmas Eve in New York's Central Park with Gault standing over the body of his latest victim, sculpting a bloody snowball. When Dr. Kay Scarpetta, a consulting pathologist for the FBI, and her colleagues Wesley Benton and Pete Morino examine the unidentified nude woman, they recognize Gault's handiwork. Thus begins a long, tedious cat-and-mouse chase as Gault taunts Scarpetta by infiltrating CAIN, the FBI's artificial-intelligence system. The bodies and the gore pile up. Readers unfamiliar with the earlier books will find Cornwell's story confusing. Still, her books are popular, so there will be demand.
