The Genius Wars By Catherine Jinks

Boy-genius Cadel Piggot has a new name (Cadel Greenaius), a new family, and a new life. No more illegal hacking, no more false identities, and most of all, no more Prosper English. But when his best friend Sonja is attacked, it's up to him to figure out who was behind it. Before he knows it, Cadel is crossing oceans and continents, barreling back into the depths of the criminal activity he thought he'd left behind, and coming face to face with Prosper English once again. Can Cadel track down Prosper before it's too late? And what rules will he have to break in the process?

Can Cadel track down Prosper before it's too late? And what rules will he have to break in the process?

Amazon Exclusive: A Letter from Catherine Jinks, Author of *The Genius Wars*

Dear Amazon Readers,

Well, here it is--the final installment. I'm sorry it's taken so long for *The Genius Wars* to reach you over there in the U.S., but at last your wait is over!

I've had a lot of messages on my website asking me if this is really the end of the series. My answer continues to be: yes, this really is the last we'll see of Cadel, if only because I've pretty much tied up all the loose ends in his story. At the conclusion of *Evil Genius*, Cadel was left in a kind of limbo. At the end of *Genius Squad*, Prosper English was still looming in the background. (It was quite obvious to me that Prosper wasn't going to just vanish into thin air, leaving Cadel to get on with his life.) But now, in *The Genius Wars*, I've sorted things out between Cadel and Prosper. And since the whole series revolves around their relationship, there's nowhere else for me to go.

Besides, I'm not a computer expert. I'm not a math whiz, either. That's why these books have been incredibly hard to write; if my friend Richard Buckland hadn't helped me, I wouldn't have been able to finish them at all. For those of you who aren't familiar with Richard, he's a bona fide computer expert--and a math whiz, too--and he appears in *The Genius Wars* under his own name because I felt that he deserved some kind of recognition. (You can view many of his university lectures on YouTube, by the way; his lecture on Turing is particularly fine.)

Of course, if someone offered me a million dollars to write a fourth book, I'd be horribly tempted. How could any author not be? But I'd be dancing with the devil if I did accept an offer like that, knowing full well that

trying to write a fourth book would not only half-kill me--it would be downright wrong. In a funny sort of way, it would also be unfair to Cadel. You'll know what I mean, once you read the book.

So happy reading! And thanks for all the positive feedback you've given me over the years. I wouldn't have been able to keep slogging on without it.

-Cathy

Cadel Piggot Greenaius has a new family and hopes for a brighter future, but a series of “accidents” convinces him that Prosper, whom he mistakenly thought was his father, has both discovered the truth of their relationship and thinks the 15-year-old boy might be meddling in his evil schemes. Even with a new police detective stepfather, Cadel knows he is the only person who can take Prosper down, permanently. Cadel’s story, started in *Evil Genius* (2007) and continued in *Genius Squad* (2008), careens to a finish in this book, which also includes several characters from previous titles. Jinks is an entertaining writer, which helps ameliorate the thin plotting. Her imaginative use of technology, which may have some readers seeking an idiot’s guide to programming, creates some truly tense moments, and Cadel is Everyman enough for readers to root for in the thick of things. Fans of the trilogy will delight in this concluding volume, and it will also appeal to gadget-crazy boys—and girls—who enjoyed Alex Rider’s adventures. Grades 7-10. --Cindy Welch

Review

"Cyber-espionage takes both front seats in this conclusion to the outstanding Genius series....the climax is taut, absorbing and tantalizingly ambiguous." —*Kirkus*, starred review

"Full-throttled plot....will command the attention of even non-techie readers until Jinks's final plot twists wind to a close." —*Horn Book*

Users Review

From reader reviews:

Curtis Wilson:

Here thing why that The Genius Wars are different and trustworthy to be yours. First of all looking at a book is good however it depends in the content of it which is the content is as tasty as food or not. The Genius Wars giving you information deeper and different ways, you can find any e-book out there but there is no publication that similar with The Genius Wars. It gives you thrill looking at journey, its open up your personal eyes about the thing this happened in the world which is possibly can be happened around you.
