### First Lady (Wynette, Texas Book 4) By Susan Elizabeth Phillips

How does the most famous woman in the world hide in plain sight? The beautiful young widow of the President of the United States thought she was free of the White House, but circumstances have forced her back into the role of First Lady. Not for long, however, because she's made up her mind to escape -- if only for a few days -- so she can live the life of an ordinary person. All she needs is the perfect disguise . . . and she's just found it.

An entire nation is searching for her, but the First Lady is in the last place anybody would think to look: in the company of a man, an infuriatingly secretive and quietly seductive stranger whose charm, good looks, and sensuous appeal are awakening the forgotten woman within the dignitary. And with two adorable little orphaned girls in need of a family along for the ride, they're heading out across the heartland chasing their own American Dream -- on a wild journey of love, adventure, and glorious rebirth.

First Lady: A star-spangled, richly emotional story of self-discovery, celebrity, love, and family.

Setting: Contemporary eastern and midwestern America

Sensuality: 7

Daughter of a powerful politician and widow of an assassinated president, Cornelia (Nealy) Litchfield Case has spent her entire life under Secret Service and media scrutiny. When her father insists that she continue the first lady's social duties for the new bachelor president, she instead resolves to break out of her glamorous prison and live life as a normal American. She knows that she can't elude the Secret Service forever, but every moment of anonymity is priceless.

Mat Jorik is a pushover for a female in trouble. When his ex-wife dies and leaves him her two daughters, he agrees to drive them from the East Coast to their grandmother's Iowa home. They haven't gone far when he takes pity on another female and offers her a ride in return for her care of the baby and teenager. Nealy accepts his offer. Little does she know when she climbs into the Winnebago that she's about to lose her heart to two kids and a handsome man who she thinks is a steelworker. When Nealy discovers his real job, Mat may wish he'd confessed earlier. In the meantime, they're off on an adventure, the likes of which Nealy's never had before. But the Secret Service is hot on Nealy's trail and despite her best efforts, she's bound to be caught. The question is, what will happen to this slapdash family when they're found?

Wonderful characters are what you expect from Phillips, and that's exactly what you get here: a heroine with strong convictions about everything from letting a baby eat cheese curls off the floor to morals in politics; a hero who adamantly denies that he likes females even as he's saving and taking care of them; and two children that will pluck your heartstrings like they've never been plucked before. They spar their way through a wild trip on the road to happiness, making for a book that's funny, romantic, and just plain fun to read. --*Lois Faye Dyer*

#### From Library Journal

Take a widowed First Lady on the run, add a discredited journalist looking for a story, toss in a pair of intriguing orphaned sisters for good measure, and you have the unlikely ingredients for another of Phillips's brilliant romantic romps, deftly combining laughter and love with real women's issues and served up with a sophisticated flair. Creative plotting adds sparkle, and entertaining, well-drawn secondary characters round out the novel, but it is the growing, healing relationship between the protagonists and how they finally form a family that touches the heartstrings and makes this contemporary romance an unforgettable read. A past master at taking a startling but just believable premise and making it work, Phillips (*Lady Be Good*) has won several RITA awards and lives in the Chicago area.
