Editorial Review

About the Author

Yogesh Patel

Yogesh Patel has been programming since the year 2000, and has been working in the IT industry for over ten years on a variety of technologies. He was mainly involved in Sitecore or .NET-based development in the Indian offices of US and UK-based organizations. He has worked at Investis Ltd as a technical architect and has lead a Sitecore development team. Yogesh has held a number of positions and has a lot of responsibilities, having worked at Investis since 2009. He has been recognized as a Most Valuable Professional (MVP) by Sitecore for 2014, 2015, and 2016. As a developer, Yogesh enjoys learning new programming techniques, practices, and tactics. He has worked on .NET since 2005 and Sitecore since 2009. He has also spent plenty of time developing in C, VC++, MATLAB, VB6, ASP, Java, PHP, AppleScript, SQL, and MySQL, but his current focus is on .NET?especially Sitecore. His blog can be found at <http://sitecoreblog.patelyogesh.in>. You can find Yogesh on Twitter at @patelyogesh_in, as well as LinkedIn (yspatel) and Facebook (patelyogesh.in).

Users Review

From reader reviews:

Gracie Thomas:

What do you consider book? It is just for students since they are still students or the idea for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has various personality and hobby for each and every other. Don't to be compelled someone or something that they don't need do that. You must know how great in addition to important the book Sitecore Cookbook for Developers. All type of book can you see on many solutions. You can look for the internet options or other social media.

Eric Fincher:

Information is provisions for folks to get better life, information currently can get by anyone in everywhere. The information can be a information or any news even a huge concern. What people must be consider whenever those information which is inside the former life are hard to be find than now's taking seriously which one would work to believe or which one the resource are convinced. If you obtain the unstable resource then you buy it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Sitecore Cookbook for Developers as the daily resource information.

Bonnie Skelton:

Reading a e-book tends to be new life style within this era globalization. With reading you can get a lot of

information that may give you benefit in your life. Having book everyone in this world could share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their reader with their story or maybe their experience. Not only the storyline that share in the publications. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors in this world always try to improve their proficiency in writing, they also doing some study before they write with their book. One of them is this Sitecore Cookbook for Developers.

James Hibner:
