Streetwise Baltimore Map - Laminated City Center Street Map of Baltimore, Maryland - Folding pocket size travel map with integrated light rail & metro stations

This map covers the following areas:

Main Baltimore Map 1:25,000

Baltimore Area Map 1:180,000

Downtown Baltimore Map 1:12,500

The glory of spring in Maryland issues sights of trees budding, flowers blooming and a 13 foot tall pepto pink poodle bobbing in the Baltimore Harbor.

The American Visionary Art Museum, located on Baltimore's Inner Harbor, is the site of the annual East Coast Championship Kinetic Sculpture Race.

Kinetic sculptures are amphibious, human powered works of art, but they may be better described as colossal propelled pool gizmos engineered to run on ingenuity and inspired by, well the inspiration can be from anything.

Previous years' entries included Cake on A Lake with a bee-hived hairdo beauty popping out of a tiered cake as the pastry made its way down the harbor (the beehive is one of Baltimore's gifts to the world).

Past entries have also included a mobile beaver lodge, the Shrimptastic float complete with support shrimp on bikes, the nine-seater PLATYPUS (Personal Longrange All-Terrain Yacht Proven Un-Safe) and the perennial plastic poodle Fifi.

Sculptures are optimistically engineered to withstand the 15 mile course that encompasses city streets, a sand trap, a mud hazard and a regatta in the harbor.

Bribes are de rigueur for the officials who line the course dressed in costumes holding chicken-on-a-stick signs.

After eight hours awards are bestowed including the Golden Flipper, Sock Creature of the Universe (a sock puppet is required of each team), Next to Last and the Dinosaur Award for the most memorable breakdown along the race.

Winners of the race are then eligible to compete in the World Championships in Arcata California, providing both pilot(s) and sculpture have survived.

Baltimore is also home to the Baltimore Orioles, the Ravens, art museums, shopping, historic sites, and several colleges. But let's face it, for one day, all that matters is the race - For the Glory!

About the Author

STREETWISE® is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. We've set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where you've never been before and to enable you to experience a familiar place more fully.

The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970's, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving.

After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain.

He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then added lamination to ensure that the map would be a lasting tool.

More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity, conciseness and convenience in a very stylish package.

Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night he packed the orders and did the design work. More titles were added, each title requiring months of research and design.

Today, STREETWISE® produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world.

Yet each title is still painstakingly researched and updated. STREETWISE® is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what

good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure.

In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE® is the great map that you need.
