**Transforming Care: A Christian Vision of Nursing Practice** By Mary Molewyk Doornbos, Ruth Groenhout, Kendra G. Hotz

Nursing involves skill, judgment, compassion, and respect for human life whether or not the nurse is a Christian. Is there anything distinctive, then, about Christian nurses?

The authors of *Transforming Care* address the question of how Christian faith molds nursing practice. Suggesting that such faith entails something more essential than evangelism or a certain position on moral dilemmas, they deal with the ordinary, everyday nature of nursing practice.

The first part of the book articulates the relationship between Christian faith and nursing practice while analyzing the concepts of *nursing*, *person*, *environment*, and *health* common to nursing literature. The second part describes and evaluates nursing practice in three different health care contexts: acute care settings, mental health facilities, and community care contexts. Sidebars throughout the book offer thought-provoking quotations from well-known authors and nursing experts.
