### Editorial Review

From Library Journal

This deep and detailed work examines the many elements of the American counterculture of the 1960s and 1970s. Its underlying theme is the rejection by mainly young but also older people of prevailing political, social, and cultural norms through experimentation with drugs, sex, music, and identity to construct alternative ways of life. The 14 essays, written by academics and journalists, are arranged into sections covering cultural politics, racial and sexual identity, the media and popular culture, the deconditioning of the human mind through drugs and feminist consciousness-raising, and alternative visions of society based on technology and communal living. Each section opens with a brief essay covering the major themes appearing in its chapters. Editors Braunstein and Doyle, who are both journalists, open the work with an excellent essay critical of both romantic and conservative views of the 1960s and stressing the need for strict historical analysis for a better understanding of the period. Particularly good essays include David Farber's study of drug use and David E. James's chapter on film. This is not an easy read, but it marks a major reexamination of the period. A good complement to *The Sixties: From Meaning to History* (Univ. of North Carolina, 1994) and *Sights on the Sixties* (Rutgers Univ., 1992. reprint); recommended for academic libraries. Stephen L. Hupp, West Virginia Univ., Parkersburg

### Review

"Braunstein (journalist and independent scholar) and Doyle (Ball State Univ.) offer a historically sound survey of US counterculture of the 1960s and 1970s...Many of the chapters are likely to become assigned reading in courses on cultural history. Strongly recommended for all academic collections.."

-K. Toloyan, Wesleyan University, for "CHOICE

..."a landmark study."

-Theodore Roszak, "San Francisco Chronicle, December 23, 2001

..."the essays do a fine job of showing the ways in which women, blacks, American Indians and gays lived out the full implications of challenging the subliminal assumptions of mainstream culture."

-Theodore Roszak, "San Francisco Chronicle, December 23, 2001

"" Imagine Nation is an important corrective to the now-fashionable view that the counterculture represented little more than the further commodification of American society. This provocative collection helps to reveal the centrality of subcultures in American history since the the 1950s."

- Alice Echols, Author of "Shaky Ground: The Sixties and Its Aftershocks.

"How thrilling to see the maelstrom of the Sixties subjected to trenchant analysis and its various ideologies and expressions compared and contrasted. These scholar-detectives are so sensitive to the mind of the times that I suspect many saw action on the same streets I and my friends did. I think they got it right.."

-Peter Coyote, Actor and Writer, Author of" Sleeping Where I Fall.

### About the Author

**Peter Braunstein** is a journalist and cultural historian based in New York City. He writes about fashion, film, celebrity, the 1960s, music, technology, and pop culture for such publications as the *Village Voice*, *Forbes*, *American Heritage*, the *Chronicle of Higher Education*, *Women's Wear Daily*, *W*, and *culturefront*. He received his M.A. from New York University in 1992, having written a thesis on the Haight-Ashbury counterculture.

**Michael William Doyle** worked in the new-wave food co-op movement during the 1970s while living communally on an organic farm he helped found in Wisconsin. He went on to earn a B.A. at the University

of Wisconsin-Madison (1989), and a Ph.D. at Cornell University (1997). He is currently Assistant Professor of History at Ball State University at Muncie, Indiana. He is the author of *Free Radicals: The Haight-Ashbury Diggers and the American Counterculture in the 1960s*.
