## **Limitless Mind: A Guide to Remote Viewing and Transformation of Consciousness** By Russell Targ

The psychic abilities of most humans are dampened by the clatter of our conscious minds. In this timely book, Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing. He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a groundbreaking synthesis of research and empirical data. Drawing on a broad range of spiritual traditions, Targ demonstrates that these psychic abilities offer a path of self-inquiry and self-realization and have the power to expand each person's limited awareness into the consciousness shared by all beings. Targ explores the scientific and spiritual implications of remote viewing, as well as offering practical techniques and exercises to nurture this universally available but often untapped skill.
