Conversations With Self: God, Consciousness And Existence Explained By Gratiela Rosu

This extraordinary revelation book may as well be called "The Human's User Manual". A thought provoking work leaving no stone unturned, answering to humanity's life-long questions: Who are we, are we even from 'here', why do we experience such hardship and what does it take to move on the evolution scale; the truth about illness and healing, mass-control and hypnotic manipulation - are just few of the subjects addressed in this mainstream myth-breaking book. A must read for anyone seriously interested in their conscious self-realisation and self-actualisation.
