Landscape Photography: From Snapshots to Great Shots By Rob Sheppard

Now that you've bought that amazing new DSLR, you need a book that goes beyond the camera manual to capture stunning images. For photographers interested in landscape photography, this guide will help you conquer the fundamentals and take amazing outdoor shots.

Pro photographer Rob Sheppard starts with the basics—composition, light, and perspective—and describes how to connect with your scene. He covers all the key camera features that affect your image, including how changing focal lengths alters your perspective and the aperture's direct correlation with depth of field. Once you've captured those shots, Rob takes you through simple post-processing steps in Lightroom, Photoshop, and Photoshop Elements.

This guide is for beginning-to-intermediate digital photographers to understand the basics and bring their own unique artistic expression to landscapes and outdoor shooting. Beautifully illustrated with large and compelling photos, this book teaches you how to take control of your photography to get the image you want every time you pick up the camera.

Editorial Review

About the Author

Rob Sheppard is a photographer, author, naturalist and nature photographer, editor and videographer. He has written and photographed many books and magazine articles but what is most important to him about them is knowing that he has helped people become better photographers and gain a better connection to nature. Rob is a Fellow with the North American Nature Photography Association, and many people also know him as the long-time, previous editor of *Outdoor Photographer* magazine. Some of the books he has done:

Landscape Photography: From Snapshot to Great Shot, *Macro Photography: From Snapshot to Great Shot*, *The Magic of Digital Nature Photography*, *National Geographic Field Guide to Digital Photography*, and *Reports from the Field* (an iBook). His website is at joyofnatureandphotography.com, blog at natureandphotography.com.

Users Review

From reader reviews:

Leonard Palmer:

Book is definitely written, printed, or outlined for everything. You can recognize everything you want by a guide. Book has a different type.
