## Murach's JavaScript and jQuery By Zak Ruvalcaba, Mike Murach

There is a newer edition of this book titled *Murach's jQuery (2nd Edition)*.

jQuery is one of the technologies that every web developer should master. The trouble is that jQuery is difficult to learn, especially for programming novices. Now, this new book makes it easier than ever to learn jQuery, jQuery UI (User Interface), and jQuery Mobile.

In essence, sections 2 and 3 of this book present all of the jQuery and jQuery UI skills that you need for developing professional jQuery applications. With those skills, you'll be able to add all of the popular jQuery applications to your web pages: image swaps, image rollovers, collapsible panels, slide shows, accordions, tabs, carousels, and more. Beyond that, though, you'll have all the skills that you need for developing unique jQuery applications of your own.

But that's just two of the five sections in the book. Because you need to know JavaScript in order to use jQuery, section 1 presents the least you need to know about JavaScript to get the most from jQuery. This is essential for programming novices, but this is also valuable for experienced programmers who may not remember how a specific JavaScript statement or method works. In short, this section makes this book a complete reference for jQuery programmers.

In contrast, section 4 takes jQuery to a new level by showing you how to use Ajax and JSON to get data from a web server and add it to a web page without reloading the page. It also shows how to use Ajax and JSON with the APIs for popular web sites like Blogger, YouTube, Twitter, Flickr, and Google Maps. These are powerful skills for enhancing a web site.

To complete this package, section 5 presents a complete course in jQuery Mobile, which offers an exciting, new way to develop web sites for mobile devices. Today, the best web sites are available in both full and mobile versions, so this section also shows how to use a JavaScript plugin to redirect a mobile device from the full version of a web site to its mobile version.

## **Editorial Review**

### **About the Author**

Zak Ruvalcaba has been researching, designing, and developing for the Web since 1995. He holds a Bachelor's degree from San Diego State University and a Master of Science degree in instructional technology from National University in San Diego. Zak's skillset includes HTML/HTML5, CSS/CSS3, JavaScript, jQuery, ASP.NET, ADO.NET, Visual Basic, C#, Web Services, Flash/ActionScript, and ColdFusion. He is also a Microsoft Certified Application Developer for .NET (MCAD) and a Microsoft Certified Solutions Developer for .NET (MCSd).

As a freelance writer many years ago, Mike decided that he had to develop his own writing methods because the ones that others were using clearly didn't work. Since then, Mike and his staff have continued to refine those methods, so today every Murach book becomes the best one on its subject. Now, after a long hiatus from writing, Mike has teamed with Zak Ruvalcaba to write Murach's JavaScript and jQuery.

## **Users Review**

### **From reader reviews:**

#### **Michael Naylor:**

Here thing why this particular Murach's JavaScript and jQuery are different and trusted to be yours. First of all reading a book is good but it really depends in the content than it which is the content is as yummy as food or not. Murach's JavaScript and jQuery giving you information deeper and in different ways, you can find any publication out there but there is no reserve that similar with Murach's JavaScript and jQuery. It gives you thrill reading through journey, its open up your own personal eyes about the thing in which happened in the world which is maybe can be happened around you. You can easily bring everywhere like in area, café, or even in your way home by train. If you are having difficulties in bringing the branded book maybe the form of Murach's JavaScript and jQuery in e-book can be your choice.

#### **Randall Briggs:**

The e-book untitled Murach's JavaScript and jQuery is the book that recommended to you to read. You can see the quality of the e-book content that will be shown to anyone. The language that publisher use to explained their ideas are easily to understand. The author was did a lot of exploration when write the book, to ensure the information that they share to your account is absolutely accurate. You also could possibly get the e-book of Murach's JavaScript and jQuery from the publisher to make you considerably more enjoy free time.

#### **Stacey Pinkston:**

This Murach's JavaScript and jQuery is new way for you who has interest to look for some information mainly because it relief your hunger of information. Getting deeper you on it getting knowledge more you know or you who still having little digest in reading this Murach's JavaScript and jQuery can be the light

food to suit your needs because the information inside this book is easy to get through anyone. These books develop itself in the form which is reachable by anyone, sure I mean in the e-book form. People who think that in reserve form make them feel tired even dizzy this guide is the answer. So there is no in reading a publication especially this one. You can find actually looking for. It should be here for you. So , don't miss the item! Just read this e-book style for your better life and knowledge.

### **Jean Proffitt:**

As a college student exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Murach's JavaScript and jQuery can make you sense more interested to read.
