**Communicating about student achievement requires accurate, consistent and meaningful grades.**

Educators interested in examining and improving grading practices should ask the following questions:

- Am I confident that students in my classroom receive consistent, accurate and meaningful grades that support learning?
- Am I confident that the grades I assign students accurately reflect my school or district's published performance standards and desired learning outcomes?

In many schools, the answers to these questions often range from "not very" to "not at all." When that's the case, grades are "broken" and teachers and schools need a "repair kit" to fix them. *A Repair Kit for Grading: 15 Fixes for Broken Grades, 2/e* gives teachers and administrators **15 ways** to make the necessary repairs.
