**Mathematical Analysis and Numerical Methods for Science and Technology: Volume 6 Evolution Problems II** By Robert Dautray, Jacques-Louis Lions

These six volumes--the result of a ten year collaboration between two distinguished international figures--compile the mathematical knowledge required by researchers in mechanics, physics, engineering, chemistry and other branches of application of mathematics for the theoretical and numerical resolution of physical models on computers. It is a comprehensive and up-to-date publication that presents the mathematical tools needed in applications of mathematics.
