Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition) By Rick Billstein, Shlomo Libeskind, Johnny Lott

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

*For courses in mathematics for elementary teachers.
This package includes MyMathLab®.*

The Gold Standard for the New Standards

A Problem Solving Approach to Mathematics for Elementary School Teachers has always reflected the content and processes set forth in today's new state mathematics standards and the Common Core State Standards (CCSS). In the **Twelfth Edition**, the authors have further tightened the connections to the CCSS and made them more explicit. This text not only helps students learn the math by promoting active learning and developing skills and concepts—it also provides an invaluable reference to future teachers by including professional development features and discussions of today's standards.

Personalize learning with MyMathLab

MyMathLab is an online homework, tutorial, and assessment program designed

to work with this text to engage students and improve results. MyMathLab includes assignable algorithmic exercises, the complete eBook, tutorial and classroom videos, eManipulatives, tools to personalize learning, and more.

Editorial Review

About the Author

Rick Billstein is a Professor of Mathematics at the University of Montana. He has worked in mathematics teacher education at this university for over 40 years and his current research is in the areas of curriculum development and mathematics teacher education. He teaches courses for future teachers in the Mathematics Department. He served as the site director for the Show-Me Project, an NSF-funded project supporting the dissemination and implementation of standards-based middle grades mathematics curricula. He worked on the NSF grant Tinker Plots to develop new data analysis software and he serves on the Advisory Boards for several other national projects. From 1992-1997, he directed the NSF-funded Six Through Eight Mathematics (STEM) middle school mathematics curriculum project and is now directing the Middle Grades MATH Themes Phase II Project. Dr. Billstein has published articles in over 20 different journals, and has co-authored over 40 books, including ten editions of *A Problem Solving Approach to Mathematics for Elementary Teachers*. He typically does about 25 regional and national presentations per year and has worked in mathematics education at the international level. He presently serves on the Editorial Board of NCTM's *Mathematics Teaching in the Middle School*. Dr. Billstein was recently awarded the George M. Dennison Presidential Faculty Award for Distinguished Accomplishment at the University of Montana.

Shlomo Libeskind is a professor in the mathematics department at the University of Oregon in Eugene, Oregon, and has been responsible there for the mathematics teaching major since 1986. In addition to teaching and advising pre-service and in-service teachers, Dr. Libeskind has extensive writing experience (books, articles, and workshop materials) as well as in directing mathematics education projects. In teaching and in writing, Dr. Libeskind uses a heuristic approach to problem solving and proof; in this approach the reasonableness of each step in a solution or proof is emphasized along with a discussion on why one direction might be more promising than another. As part of his focus on the improvement of the teaching of mathematics, Dr. Libeskind is also involved at many levels locally, nationally, and worldwide in the evaluation of mathematics teacher preparation programs. In his home state, he is actively involved in schools and councils, as well as in reviewing materials for the state standards for college admission. Most recently (spring 2008) he visited teacher colleges in Israel as a Fulbright Fellow. During this visit he conducted observations and critiques of the preparation of mathematics teachers at several colleges in Northern Israel. Dr. Libeskind received his Bachelor's and Master's Degrees in Mathematics at the Technion (Israel Institute of Technology) and his PhD in Mathematics at the University of Wisconsin, Madison.

Johnny W. Lott began his teaching career in the public schools of DeKalb County, Georgia, outside Atlanta. There he taught mathematics in grades 8-12. He also taught one year at the Westminster Schools, grades 9-12, and one year in the Pelican, Alaska, school, grades 6-12. Johnny is the co-author of several books and has written numerous articles and other essays in the *"Arithmetic Teacher"*, *"Teaching Children Mathematics"*, *"The Mathematics Teacher"*, *"School Science and Mathematics"*, *"Student Math Notes"*, and *"Mathematics Education Dialogues"*. He was the Project Manager for the *"Figure This!"* publications and website developed by the National Council of Teachers of Mathematics (NCTM) and was project co-director of the State Systemic Initiative for Montana Mathematics and Science (SIMMS) Project. He has served on many NCTM committees, has been a member of its Board of Directors, and was its president from April 2002-April 2004. Dr. Lott is Professor Emeritus from the Department of Mathematical Sciences at The University of Montana, having been a full professor. He is currently the Director of the Center for Excellence in Teaching and Learning, Professor of Mathematics, and Professor of Education at the University of

Mississippi. Additionally, he is on the Steering Committee of the Park City Mathematics Institute, works with the International Seminar, the Designing and Delivering Professional Development Seminar, and is editor for its high school publications. His doctorate is in mathematics education from Georgia State University.

Users Review

From reader reviews:

Angel Huitt:

Why don't make it to be your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite publication and reading a publication. Beside you can solve your condition; you can add your knowledge by the publication entitled Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition). Try to stumble through book Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition) as your good friend. It means that it can being your friend when you really feel alone and beside regarding course make you smarter than previously. Yeah, it is very fortunated to suit your needs. The book makes you considerably more confidence because you can know anything by the book. So , let's make new experience as well as knowledge with this book.

Jennifer Walker:

Now a day folks who Living in the era wherever everything reachable by interact with the internet and the resources in it can be true or not call for people to be aware of each facts they get. How many people to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Reading through a book can help men and women out of this uncertainty Information mainly this Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition) book because book offers you rich information and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it you may already know.

Dennis Simpson:

This Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition) is great publication for you because the content and that is full of information for you who also always deal with world and have to make decision every minute. This book reveal it data accurately using great plan word or we can say no rambling sentences within it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only gives you straight forward sentences but tricky core information with beautiful delivering sentences. Having Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition) in your hand like having the world in your arm, details in it is not ridiculous a single. We can say that no e-book that offer you world with ten or fifteen moment right but this reserve already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. occupied do you still doubt which?

Toni Sargent:

In this particular era which is the greater individual or who has ability in doing something more are more important than other. Do you want to become considered one of it? It is just simple method to have that. What you are related is just spending your time not very much but quite enough to get a look at some books. One of the books in the top collection in your reading list is actually Problem Solving Approach to Mathematics for Elementary School Teachers, A, Plus MyMathLab -- Access Card Package (12th Edition). This book that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking way up and review this book you can get many advantages.
