### The Negotiator By Frederick Forsyth

Frederick Forsyth, master of the international thriller, returns with an electrifying story of a man of immense power and a conspiracy to crush the President of the United States. Only one man--Forsyth's most unforgettable hero yet--can prevent the plan from succeeding. His name is Quinn. He is the Negotiator. President Cormack is bent on signing a sweeping U.S.-Soviet disarmament treaty, and the master conspirator is determined to stop him. The kidnapping of a young man on a country road in Oxfordshire is but the first brutal step in the explosive plot engineered for the president's destruction. Enter Quinn. Quinn plays the kidnappers like a master musician. . . until, in a shocking turnabout, he discovers that ransom was not their objection after all--and that he has been lured into a cunningly woven web. Now he must draw upon his deepest strengths--to save not only the victim but the entire free world.

## Editorial Review

From Publishers Weekly

The reader almost despairs of a story getting under way in Forsyth's latest: the situation takes so long to set up, and is mired in such wearisome detail. Finally, after it has been made clear that both a renegade Soviet military group and a fanatical Texan oil baron plan to take over an oil-rich Middle Eastern state for their different twisted reasons, the action begins. The son of the American president (who is about to sign a major arms agreement with Gorbachev himself) is kidnapped, and, despite the best efforts of Quinn, the negotiator, is killed at the very moment of his ransoming. The president is stricken, a takeover of the U.S. government looms, and it looks as if the treaty is doomed. Now it is up to Quinn to find out who was behind the crime, and why. With a plucky and pretty female FBI agent, he scours obscure corners of northern Europe for the perpetrators--always to find them dead just as he arrives. In a cliffhanger of a conclusion, he brings the guilt home to Washington, the president perks up and the world is saved. As always, Forsyth is good at the details (you learn more about Dutch and Belgian road maps than you probably ever wanted to know), keeps a few surprises up his sleeve and writes action scenes more crisply, and with less gore, than Ludlum. But his characterization is flat, and much of *The Negotiator* is terribly familiar. By far the best parts are the negotiations for the ransoming of the president's son, which generate real tension. BOMC main selection. Copyright 1989 Reed Business Information, Inc.

Review

"Forsyth gives us all we ask for."--*Chicago Tribune*.

"Forsyth at the top of his game!"--Tom Clancy, author of *The Hunt For Red October*.

"A Blockbuster."--*New York Daily News*.

"A completely satisfying thriller. . . *The Negotiator* delivers. . . A string of unsettling climaxes."--*Newsweek*.
