Breve historia de todas las cosas (A Brief History of Everything) (Spanish Edition) By Ken Wilber

Breve historia de todas las cosas es una excursión extraordinaria a través del Kosmos. En un viaje para cortar el aliento, desde el Big Bang hasta el mundo postmoderno en que vivimos, Ken Wilber analiza el universo y nuestro lugar en él —y nos brinda una crónica accesible y entretenida de cómo se entrelaza y funciona todo. Por el camino echa luz no sólo sobre las grandes preguntas cósmicas sino sobre diversos asuntos muy debatidos de nuestros días, como la ética ambiental, las relaciones de género, el multiculturalismo e incluso el sentido del Internet. En cada uno de estos terrenos hay patrones repetitivos que, si los examinamos con cuidado, pueden enseñarnos mucho acerca de los problemas de nuestro mundo, y en qué dirección debemos encaminarnos para que la transformación planetaria se vuelva realidad.

A Brief History of Everything is an extraordinary ride through the Kosmos. In a breathtaking trip from the Big Bang to the Postmodern world we inhabit, Ken Wilber examines the universe and our place in it—and comes up with an accessible and entertaining account of how it all fits together. Along the way he sheds light not only on the great cosmic questions but on various contentious issues of our day, such as environmental ethics, gender relations, multiculturalism, and even the meaning of the Internet. In each of these domains, there are recurring patterns, and by looking closely at them, we can learn much about the predicament of our world—and the direction we must take if global transformation is to become a reality.

Editorial Review

Review

“En su obra, ambiciosamente titulada *Breve historia de todas las cosas*, Wilber continúa su búsqueda de las pautas primarias que se manifiestan en todos los reinos de la existencia. Al igual que Hegel en el Occidente y Aurobindo en el Oriente, Wilber es un pensador de la gran tradición sistemática, un aventurero intelectual preocupado por nada menos que la historia completa de la evolución, la trayectoria suprema de la vida —en dos palabras, por todo... Combinando sensibilidad espiritual con una enorme comprensión intelectual y un estilo claro y elegante, *Breve historia de todas las cosas* es una clarinada que llama a ver el mundo como una unidad, algo muy diferente del reduccionismo deprimente, que está de moda, de la filosofía académica derivada de Foucault”.—*San Francisco Chronicle*

“In the ambitiously titled *A Brief History of Everything*, Wilber continues his search for the primary patterns that manifest in all realms of existence. Like Hegel in the West and Aurobindo in the East, Wilber is a thinker in the grand systematic tradition, an intellectual adventurer concerned with nothing less than the whole course of evolution, life's ultimate trajectory—in a word, everything. . . . Combining spiritual sensitivity with enormous intellectual understanding and a style of elegance and clarity, *A Brief History of Everything* is a clarion call for seeing the world as a whole, much at odds with the depressing reductionism of trendy Foucault-derivative academic philosophy.”—*San Francisco Chronicle*

About the Author

Ken Wilber is the author of over twenty books. He is the founder of Integral Institute, a think-tank for studying integral theory and practice, with outreach through local and online communities such as Integral Education Network, Integral Training, and Integral Spiritual Center.

Users Review

From reader reviews:
