Lung Cancer (MD Anderson Cancer Care Series) From Springer

Lung cancer remains the leading cause of cancer-related death in men, and in women, it has surpassed even breast cancer. According to the American Cancer Society, in 2001, there will be about 169,500 new cases of lung cancer in the United States: 90,700 among men and 78,800 among women. **Lung Cancer** is the second installment in the M. D. Anderson Cancer Care Series, featuring the current standard approach to lung cancer care from the experts at M. D. Anderson Cancer Center. Designed for the practicing oncologist, this clinical guidebook allows for quick, authoritative access to the latest and best multimodality therapies. Topics covered in this volume include the clinical examination of patients with suspected lung cancer, thoracic imaging techniques for non-small cell and small cell lung cancer, pathology of lung cancer, treatment and management of non-small and small-cell lung cancer, including the role of guidelines and clinical pathways, molecular events in lung cancer and implications for prevention and therapy, palliation, and much more. Each of the 15 chapters ends with an up-to-date list of suggested readings, as well as "key practice points" highlighting the most important principles and practices of each chapter for at-a-glance reference. Over 50 illustrations and 40 tables round out the text. This thorough, practical volume is the essential clinical guide for oncologists, surgeons, and all physicians involved in the care of patients with lung cancer.

Editorial Review

Review

“With almost half of the revised and updated content being brand new, Lung Cancer, Fourth Edition, is an important and vital resource for all medical professionals and students involved in the care and treatment of those struck with this catastrophic illness.” (*Kingbook73's Medical Ebook and Video Collection*, 19 September 2014)

From the Back Cover

Lung cancer is a major cause of cancer-related deaths in men and women. However, since the first edition of "Lung Cancer" was published 14 years ago, rapid progress in the biology, prevention, diagnosis, and treatment of the disease has been made.

This outstanding team from the M.D. Anderson Cancer Center takes an evidence-based approach to lung cancer management and explains these advances in depth. Comprehensive treatment guidelines are provided, the third edition of Lung Cancer explores vital issues such as:

Lung cancer susceptibility and risk assessment

The pathology and pathogenesis of peripheral lung adenocarcinoma including bronchioloalveolar carcinoma

Screening for early detection

Advances in molecular and genetic markers

The detection and treatment of pre-neoplastic lesions and screening for lung cancer

Novel therapies such as angiogenesis and multi-tyrosine kinase inhibitors

"Lung Cancer" is a concise summary of advances in lung cancer clinical research and treatment for the clinician and is an invaluable reference for respiratory physicians, medical oncologists, clinical and surgical oncologists.

About the Author

Jack A. Roth, MD, F.A.C.S., is Professor and Bud Johnson Clinical Distinguished Chair in the Department of Thoracic and Cardiovascular Surgery, Professor of Molecular and Cellular Oncology, Director of the W.M. Keck Center of Innovative Cancer Therapies, and Chief of the Section of Thoracic Molecular Oncology at the University of Texas MD Anderson Cancer Center in Houston, Texas, USA.

Waun Ki Hong, MD, D.M.Sc. (Hon.), is the American Cancer Society Professor and Samsung Distinguished University Chair in Cancer Medicine, as well as Professor and Head of the Division of Cancer Medicine and Professor in the Department of Thoracic/Head and Neck Medical Oncology at the University of Texas MD Anderson Cancer Center in Houston, Texas, USA.

Users Review

From reader reviews:

Edward Payne:

Inside other case, little men and women like to read book Lung Cancer (MD Anderson Cancer Care Series). You can choose the best book if you love reading a book. So long as we know about how is important a new book Lung Cancer (MD Anderson Cancer Care Series). You can add understanding and of course you can around the world by just a book. Absolutely right, simply because from book you can learn everything! From your country until foreign or abroad you will find yourself known. About simple matter until wonderful thing you may know that. In this era, we could open a book or even searching by internet device. It is called e-book. You can use it when you feel uninterested to go to the library. Let's read.

Nicholas Mishler:

Playing with family in the park, coming to see the sea world or hanging out with buddies is thing that usually you have done when you have spare time, after that why you don't try point that really opposite from that. A single activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Lung Cancer (MD Anderson Cancer Care Series), you are able to enjoy both. It is fine combination right, you still would like to miss it? What kind of hang-out type is it? Oh seriously its mind hangout people. What? Still don't have it, oh come on its called reading friends.

Jeffrey Chambers:

Is it anyone who having spare time and then spend it whole day simply by watching television programs or just lying down on the bed? Do you need something new? This Lung Cancer (MD Anderson Cancer Care Series) can be the respond to, oh how comes? A fresh book you know. You are therefore out of date, spending your free time by reading in this completely new era is common not a geek activity. So what these guides have than the others?

Ian Sharpless:

What is your hobby? Have you heard that will question when you got learners? We believe that that issue was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. And you know that little person such as reading or as looking at become their hobby. You must know that reading is very important along with book as to be the issue. Book is important thing to add you knowledge, except your own teacher or lecturer. You will find good news or update concerning something by book. Numerous books that can you choose to use be your object. One of them is actually Lung Cancer (MD Anderson Cancer Care Series).
