**Radiation Oncology Review for Boards and MOC** By George Rodrigues MD FRCPC MSc, Tithi Biswas MD

*Radiation Oncology Review for Boards and MOC* is a singular study guide, written for those who are preparing for the American Board of Radiology certification exam or maintenance exam. The authors provide a concise, targeted overview of the key knowledge within each clinical area of radiation oncology practice, as well as to related topics that are relevant to practice and are covered on examinations.

Chapters span the relevant disease site and subspecialty areas including gastrointestinal, gynecologic, genitourinary, breast, soft tissue and bone, pediatric, central nervous system, head and neck, skin, lung/ thoracic, and hematologic malignancies. The chapters detail the latest research and statistics, along with essential clinical knowledge on staging, management considerations, treatment planning and simulation, toxicity, follow up and outcomes that will be tested during the certification and recertification exams. Each chapter includes a focused practice test with multiple-choice questions and answers, which contain rationales and references. Two full practice exams appear at the end of the book.

Ideal for first-time test-takers and recertification candidates alike, the bulleted, straightforward format will help anyone preparing for the boards or MOC recall their existing, specialized knowledge, and sharpen their skills in other areas of radiation oncology.

## Key Features:

- Includes two comprehensive practice tests that assess your knowledge of all disease sites and subtopics
- Reviews palliative care in several site-specific chapters
- Presents other related topics crucial to the exam, including biostatistics

##### **Lloyd Lake:**

Are you kind of active person, only have 10 or perhaps 15 minute in your day to upgrading your mind ability or thinking skill even analytical thinking? Then you are experiencing problem with the book in comparison with can satisfy your short time to read it because this time you only find book that need more time to be read. Radiation Oncology Review for Boards and MOC can be your answer mainly because it can be read by you who have those short spare time problems.

**Lawrence Caulfield:**

As a pupil exactly feel bored to be able to reading. If their teacher asked them to go to the library in order to make summary for some reserve, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Radiation Oncology Review for Boards and MOC can make you really feel more interested to read.
